## Jinchuan Group International Resources Co. Ltd Case study

---

### CFO and Company Secretary at Jinchuan Group International Resources Co. Ltd (Jinchuan International) shares the reasons why they went paperless with Convene.

Our board packs used to be at least 200 pages long and exceeded 400 pages if an Annual Report was included for approval. Before using Convene, it normally took us more than three hours just to print these board packs the night before the board meeting. Back then, we would have to carefully choose which pages should be printed in colour to save printing costs. We had to stay late in the office to make sure we printed the materials in time for the board meeting the next day.

We never tried any meeting software before but considered different options. When we found out about Convene in a magazine ad, we quickly adopted it because its many features appealed to our needs.

#### Interactive Remote Meetings

We have board members in Mainland China, Brisbane, London, and Hong Kong. Given our different locations, we really like Convene's live presentation feature. Our board meetings, especially our remote meetings, became more interactive. Communication among board members has improved overall after using Convene.

In our last board meeting, the directors raised comments on some financial figures; then they asked the staff to immediately update the figures and upload the files. A few moments later - roughly the same time it took them to sip their coffee - they were able to see the updates. This enabled the board to continue the discussion without any interruption. We were impressed with this feature.

#### Intuitive and Easy to Use

To transition to Convene, we had a preparatory board meeting where some of our board members tried the product - without any training. We didn't need long training sessions as we found Convene very intuitive and easy to use.

Engaged in overseas mining and resource trading, Jinchuan International forms partnerships, creates opportunities, and nurtures a safe and healthy environment for the benefit of its shareholders and employees.

They have nine board members and four to six board meetings per year. They started using Convene in June 2015 because they wanted to streamline the way they prepare for, and hold board meetings.

**JINCHUAN 金川**

“ We saved on printing costs and reduced the effort needed to print board packs at the same time. ”

## Features

### Award winning security

- Multi-factor authentication
- Document encryption on server and on device
- Real time decryption
- Remote data wipe on lost devices

### Manage all stages of your meeting

#### Plan your meetings

- Attach documents to agenda items
- Control access & permission to files
- Digitally amend and distribute board packs

#### Engage your participants

- Start remote meetings
- Have real-time interactive presentations
- Lock participants' screens to the presentation
- Vote on items and approve documents

#### Follow-up easily

- Send a meeting summary immediately
- Track actions after the meeting
- Review previous meetings and documents

#### Quarterly upgrades

- Convene is updated every quarter. An upgrade is done when it is convenient for the client.

In our first board meeting using Convene, we tried simultaneous page-turn, voting, change presenter for different agenda, instant distribution of updated documents, and other features. We didn't use Convene just for reading documents.

## Excellent Multilingual Support

We appreciate the effectiveness of Convene's local product specialists in conducting presentations and providing timely support to us. Convene's support team provided prompt response to urgent matters raised the morning of our board meeting.

Another positive is Convene's multilingual support. Convene also provides verbal support in Mandarin, Cantonese, and English. Its user interface in English, Traditional, and Simplified Chinese caters to the needs of our directors from different countries. All these services and features were highly appreciated by our board.
